

# TELECOM BILLING MADE SIMPLE

## The Power of Visibility Can Never Be Underestimated.

Finance, IT, and procurement professionals know the pain of telecom billing. Our platform makes it possible to seamlessly coordinate quoting, orders, billing, and support for all carrier wireline and wireless services, empowering businesses to make informed decisions that drive growth and efficiency.

### Simplify

Get clarity and control of your entire spend lifecycle through a single easy-to-use platform.

### Manage

Manage your entire telecom inventory from ordering, and procurement, to invoice management and payment.

### Optimize

Maintain efficiency and cost optimization across your entire enterprise telecom network.

## A TEM Solution That Delivers Simplicity, Savings and User Satisfaction.

### Single Invoice

Streamline multiple carrier bills into one invoice.

### Inventory Management

View inventory and spend by location and provider.

### Expense Management

Variance analysis with detailed explanations.

### Audit and Disputes

Billing disputes and credits handled on your behalf.

### Invoice Management

Ensure accuracy, and avoid service disruptions, overages, and late fees.

### Reporting and Analytics

Target just the data you need to make decisions with visual real time actionable reporting.
